

# THIAGO LOPES DE HOLLEBEN

[hollebenthiago@gmail.com](mailto:hollebenthiago@gmail.com) · github: [@hollebenthiago](#) · (+55) 21999631974

Birth date: 23/07/1998

Avenida Athos da Silveira Ramos, 149 Ilha do Fundão - Cidade Universitária, Rio de Janeiro - RJ, Brasil.

## EDUCATION

---

**Universidade Federal do Rio de Janeiro, Brazil**

Major in Mathematics

*march 2016 - july 2017 (interrupted)*

**Universidade Federal do Rio de Janeiro, Brazil**

Bachelor in Applied Mathematics

*july 2017 - Present (expected 2020)*

**Universidade Federal do Rio de Janeiro, Brazil**

Master's degree in Mathematics

Advisor: Seyed Hamid Hassanzadeh

*august 2019 - Present (expected 2021)*

## SKILLS

---

**Languages:** Macaulay2, Sage, Python, Javascript

## COMPUTATIONAL ALGEBRA PERSONAL PROJECTS

---

**Some simulations on statistical properties of Betti tables over a given class of ideals**

Macaulay2 and Python script to study some statistical properties of Betti tables over a given class of ideals.

Technologies used: Macaulay2, Python3, github repository: [Quantitative-Betti-Tables](#)

**Some simulations on the statistical behaviour of rational points of elliptic curves over finite fields.**

Sagemath script to study some statistical properties of rational points of elliptic curves over finite fields related to Serre's bound.

Technologies used: Macaulay2, Python3, github repository: [FiniteField-Elliptic-RationalPoints](#)

## ACADEMIC ACHIEVEMENTS

---

**Honours undergraduate research project**

Received an award for a research project on the algebraic and combinatorial properties of Edge Ideals. During SIAC 2018.

Advisor: Seyed Hamid Hassanzadeh

## POSITIONS OF RESPONSIBILITY

---

**Teaching assistant at UFRJ**

First semester of 2019

**Teaching assistant at UFRJ**

First and second semester of 2018

**Organizer of weekly student seminar at UFRJ**

Organised weekly seminars at UFRJ during the second semester of 2019.

## EVENTS ATTENDED

---

Combinatorial Algebra meets Algebraic Combinatorics 2020. 2020  
1st Joint Meeting Brazil-France in Mathematics. 2019.  
32o Colóquio Brasileiro de Matemática. 2019.  
SIMCARA. 2019.  
Syzygies, from Theory to Applications. 2019.  
XXV Escola de Álgebra. 2018.

## RESEARCH LINE

---

Currently I'm studying Commutative Algebra.
